

Omaxe Macrocosm

Over the past 22 years, Omaxe has established a permanent niche for itself in the real estate & construction sector by means of diverse range of well-planned residential and commercial projects. Today, Omaxe takes great pride in being a part of the dreams of millions across the nation and help them turn it into reality. The company at present has 53 projects under execution and planning. Among these are 21 integrated townships including a Hi-tech township, 21 group housing projects, 9 shopping malls & commercial complexes and 2 hotels. No wonder, Omaxe holds the honor of being one of India's rapidly growing real estate developers. There are 11 ongoing infrastructure & construction contracting projects. Moreover, the company has already delivered 17 projects across the nation, covering sprawling 10.68 million sq. ft of total area, counting 9 group housing, townships and 6 commercial projects.

Omaxe has progressed with leaps and bounds already making its presence felt in 40 cities and 11 states across the country. Trust comes tagged with the name Omaxe as is evident from the 120 contracting projects done for different institutions and organizations. Not to suffice, the quality system standards at Omaxe are at par with the best of the world that has helped the company evolve into a premier real estate development company. Visit your nearest office today because you truly deserve an Omaxe property.

The New Business Icon

Presenting

Why Chandigarh Extension?

The dream city of countless Indians and often referred to as The City Beautiful, Chandigarh, India's most well-planned city has all the reasons to extend its arms to a limit that not just gives it a scope for creating more residential opportunities but also allows it to extend its economic borders. And take a leap from its generations old business format to a revolutionary concept of the advanced, arresting and iconic business skyscrapers.

On one hand, where Chandigarh's internationally renowned architecture and urban planning are still driving people in, on the other, as the city is rapidly approaching its saturation point, the wide airy lanes have started to suffocate. Moreover, the popular neighborhoods like Mohali and Panchkula asking for hefty prices, there is a certain need of a city that can keep up to the commercial as well as residential expectations of all those who still look up to the city because of its extraordinary geography.

The foresight of Punjab Government and backed by in-depth research and master planning by the renowned Jurong International of Singapore have rightly gave birth to Punjab's first ever Eco-town Mullapur and A little Singapore in India, Chandigarh Extension.

A proposed sprawling 1000 acres of township that brings amazing business and residential prospects on the virgin greens of Mullapur.

India Trade Tower
An epitome of commercial brilliance, architectural excellence, geographical advantages and environmental beauty, India Trade Tower is primed to mark the beginning of a new economic era in the revolutionary town of Chandigarh Extension. Kissing the skies with its G+19 floor high stature, India Trade Tower is going to be the first ever bizz hi-rise of Punjab, that will make every hour of your day count, be it the office hours or a break for rejuvenation.

Perspective view

Green by design

Perspective view

The India Trade Tower is a green building. What this means is the building utilizes its resources efficiently - resources such as - energy, water, and materials. Through better design, construction, operation, maintenance, and waste management India Trade Tower reduces the impact on human health and the environment. India Trade Tower has the following processes in place which help the environment by:

- Efficiently using energy, water, and other resources
- Protecting occupant health and improving employee productivity
- Reducing waste, pollution and environmental degradation
- Substantial reduction in operational cost

The design for this project includes:

- Energy efficient HVAC and electrical equipment and systems design providing considerable energy savings & superior occupant comfort and excellent indoor air quality
- High efficiency water system design resulting in water use reduction
- Utilization of regionally manufactured materials thereby reducing the impact of environmental pollution
- Exemplary performance on construction waste management diverting the construction waste generated at site
- Unique building design providing excellent day lighting for interior spaces thereby reducing the lighting load significantly.

Office spaces so comfortable that may turn you workaholic

Architecture & Design that even the connoisseurs will admire

Food courts rich flowing with delicious recipes to help you re-collect yourself

Efficiently organized core and flexible lift clusters connecting 19 magnificent floors

Greater daylight penetration for buildings with scenic beauty to relish

Grand passages that provide fluency to walk-ins and outs

Spacious welcome lobbies with ambience enthused with hospitality

- Designed with up-to-the-minute technology
- Stunning skyscraping G+19 floors
- Covering extensive 2,45,000 sq. ft space fully centrally air-Condition
- 17 fully commercial floors embracing 1, 85,000 sq ft of space
- 42,000 sq ft space dedicated to retail
- Food and health club spread over 18,000 sq ft
- And a floor entirely covered with terrace podium, gym, food court and water body etc.
- Eco-friendly & Energy Efficient Structure

Advantages

- 5-star plus club spread over 40,000 sq ft
- Up coming 5 star Hotels, Business Suits and services apartments
- Upcoming Metro Line and Bus terminal in the vicinity
- 300 acres of health village near by
- Front with 200ft wide main road
- 8 mins. from PGI hospital
- 10 mins drive from prime areas like Sec.11
- Stones throw from Madhya Marg
- Saharanpur Industrial Area close at hand
- Plenty of residential options
- Approved by GMADA

Geographical benefits

This wonderful example of design and technology stands high amidst the strategically located township of Chandigarh Extension in Mullapur, backed by in-depth research and master planning by the renowned Jurong International of Singapore. Not just this, falling on the buzzing Madhyamarg, on one hand, where it offers proximity to prime locations of Chandigarh, on the other hand it looks around proudly to its well endowed environs, enjoying being a part of Punjab's first ever Eco-town.

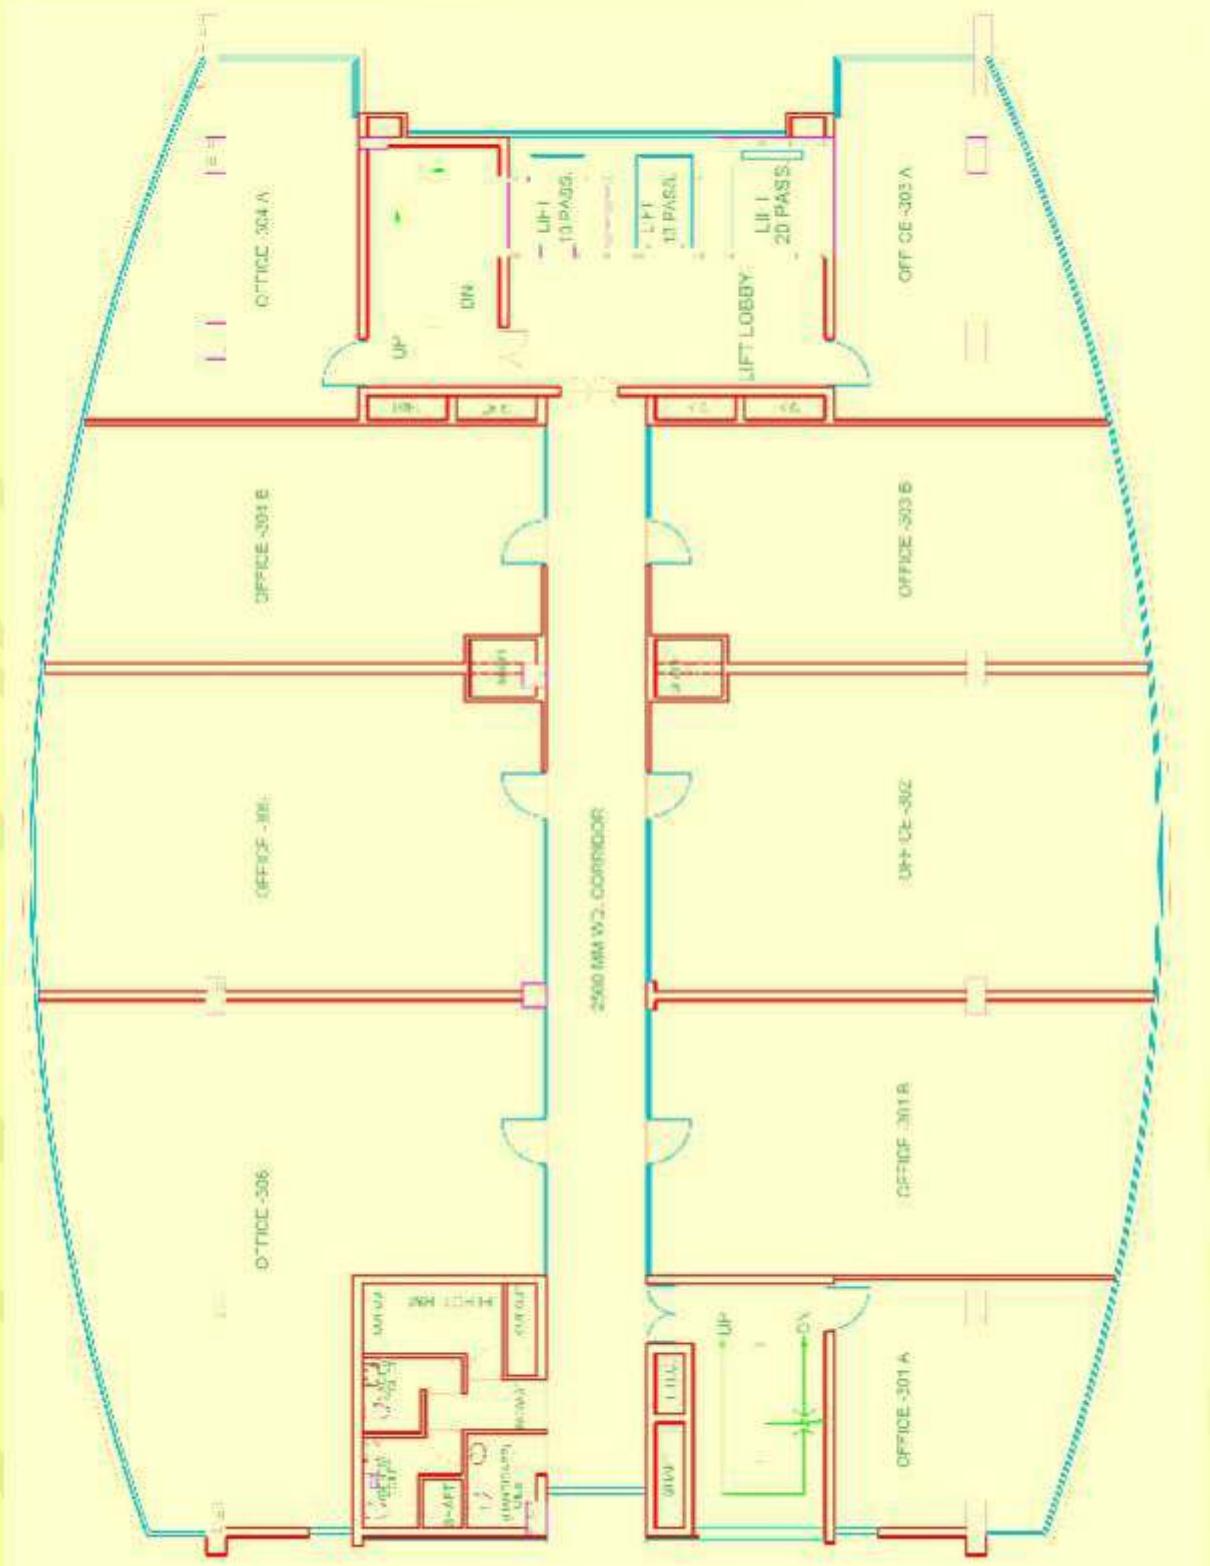

There's plenty to come in the vicinity
